

**Companion Meeting of the International Society of Bone and Soft Tissue Pathology
Boston, Sunday Afternoon -1:30 p.m., March 8, 209**

The role of molecular genetics and cytogenetics in tumors of the soft tissue and bone

Moderator: Angelo P. Dei Tos, Treviso, ITALY

1.30 pm

Angelo P. Dei Tos, Treviso, Italy

apdeitos@ulss.tv.it

Opening Remarks

1.35

Jonathan Fletcher, Boston, MA, USA

jfletcher@partners.org

Using signalling pathways to identify targets in soft tissue sarcomas.

2.05 pm

Cristina R. Antonescu, New York, NY, USA

antonesc@MSKCC.ORG

Patterns of resistance in GIST: implications for genetic testing and therapeutics.

2.35 pm

Robert B. West, Stanford, USA

rbwest@stanford.edu

Clinical applications of gene expression profiling in soft tissue tumors

3.05 pm

Recess

3.30 pm

Andre M. Oliveira, Rochester, MN, USA.

Oliveira.Andre@mayo.edu

Application of FISH in soft tissue sarcoma diagnosis.

4.00 pm

Pancras C. W. Hogendoorn, Leiden, The Netherlands

P.C.W.Hogendoorn@lumc.nl

Clinical relevance of molecular genetics in bone tumors.

4.30 pm

Poul H. Sorensen, Vancouver, Canada

psor@interchange.ubc.ca

Prognostic relevance of molecular genetics in soft tissue tumors.

5.00 pm

Christopher D. M. Fletcher, Boston, USA

CFLETCHER@PARTNERS.ORG

Conclusive remarks

Society's Officers

President

Angelo P. Dei Tos, Treviso, Italy

President Elect

Christopher D. M. Fletcher, Boston, USA.

Past President:

Sharon W. Weiss, Atlanta, USA.

Secretary

John S. J. Brooks, Philadelphia, USA.

Treasurer

Andrea T. Deyrup, Atlanta, USA.
