

European Clinical Trials Development Officer

UNIVERSITY OF OXFORD
DEPARTMENT OF MEDICAL ONCOLOGY
Grade 7: Salary £28,839 - £38,757 p.a.
50%-80% WTE by agreement, Fixed term (until February 2011)

EuroBoNeT is a Framework 6 collaboration across European Bone Sarcoma Centres focused on the pathological and translational aspects of the malignant bone disease. The purpose of this post is to establish four multi-centre Phase II clinical trials in the major EuroBoNeT centres. These will be focused specifically on the four pathological subtypes of bone sarcoma (Ewings sarcoma, osteosarcoma, giant cell tumours of bone and chondrosarcoma).

The post will be most suited to an experienced trials management professional who relishes the challenge of helping to build the EuroBoNeT translational trials platform. The Development Officer must be capable of making rapid, independent progress hence a strong track record in protocol development and clinical research project management is essential. Experience gained in the oncology trials setting and awareness of current issues in early phase studies will be valuable. It is essential that applicants are willing and able to travel to visit EuroBoNeT centres and attend working group meetings across Europe.

The post is available from 1 October 2009 until February 2011.

For further particulars about this post please contact Mandy Slark (tel: 01865 235315; email: [HYPERLINK "mailto:mandy.slark@medonc.ox.ac.uk" mandy.slark@medonc.ox.ac.uk](mailto:mandy.slark@medonc.ox.ac.uk)).
